COAL AND COKE SHIPMENTS FOR JULY SHOW A DECREASE

Sand and Gravel, However,
Make Up Large South
Bound Tonnage

AN INCREASE IN PASSENGERS

The report from Lock No. Four for the month of July shows a falling off in the shipment of 1,662,000 bushels, and of coke of 121,000 bushels. All other traffic was somewhat smaller than in the previous month. In June the number of passengers carried down stream was 578, while for July it was 1242. Up-bound, the figures show 1211 for July as against 623 for June.

The falling off in the shipment of coal and coke may be attributed to a variety of causes, possibly the greatest one being the shortage of labor. The demand is just as great as ever, while new workings are reported every week on the upper reaches of the river, which could make the monthly reports show a gain. Hot weather seems to seriously affect the coal and coke industry, as miners and coke workers are drawing big money at the present time, the inclination to take a day off with greater frequency is very evident. However it is manifest the slump in shipments is only temporary, and while August may not show any great increase over July, it is expected the fall months will record a greater tonnage than for several months past.

Building activities are shown to be a prominent feature of the up-river country in the heavy shipments of sand and gravel which were made in July, 87,000 bushels of the former, and 93,000 bushels of the latter product being sent south, in addition to 175,000 feet of lumber. These shipments are likely to continue for some time, in view of the large amount of work now under way at various points along the upper Monongahela.

The report of the lock for July shows: Down stream—Number of lockings, 423; steamers, 305; boats and barges, 1330; one raft; other craft, 23; bushels of coal, 17,615,000; bushels of coke, 839,000; timber, 8,000 feet; lumber, 60,000 feet; merchandise, 512 tons; live stock, 5; passengers, 1249.

Up-stream—Lockages, 411; steamers, 306; boats and barges, 1376; other craft, 24; coal, 2,000 bushels; sand 37,000 bushels; gravel, 93,000; lumber, 175,000; ties, 3,000; merchandise, 475 tons; live stock, 14; passengers, 1211.

You wouldn't think it, but the price of coal advances even while the mercury climbs high in the nineties.

FALLOWFIELD GRANGE TO PICNIC SATURDAY

The annual picnic of Fallowfield Grange will be held at Oakland Park on Saturday, August 11th. It will be an all-day affair, and if the weather is suitable a large attendance is expected. L. W. Lydick, editor of the dairy department of the National Stockman and Farmer, and who is also one of the Pennsylvania State Farm advisors, will be present and make an address. A complete program of sports has been prepared, which will give every one who desires a chance to take part. A general invitation is extended to the public to come and share in the pleasure of the day. All are requested to bring baskets. A picnic dinner will be served at noon.

"SLACKER" WILL BE REGISTERED

Charleroi's Only Representative in This Class
Now in Lockup

TO BE ENROLLED AND PASSED

Jesse Lowe, colored, is sojourning in the Charleroi lockup, because of his failure to register on the 5th of June for the new draft army.

Lowe was a resident of Lock No. 4, and failed to appear before the registrars at the time specified in the President's proclamation. When his case was brought to the attention of local officers, Chief Albright made an investigation and ascertained he was eligible for service. He then requested Lowe to register, giving him plenty of time to go to Washington and be placed on the list. Lowe, however, evidently did not take the advice seriously, and he failed to comply with the request, although he had promised to do so. Chief Albright then notified the federal authorities at Pittsburgh, and about two weeks ago a deputy U. S. Marshal came to Charleroi and arrested Lowe. He has been held in custody all this time, and on Tuesday he promised to register if given an opportunity. He was brought to Charleroi Tuesday evening, and as soon as the necessary papers can be made out he will be enrolled. He will then be taken to Donora. (Continued on page two)

Price on His Head Abroad, Raemakers, Famous Dutch Cartoonist, at Work Here

Probably no cartoonist in the world has gained the international fame of Louis Raemakers, the famous Dutch artist, who is now in America to turn his splendid powers to the cause of the Allies in moulding public opinion through the medium of caricatures and drawings. The accompanying cartoon is one of the first he drew in America. It bears the title "All According to Plan," and depicts the German Kaiser and his great General Hindenburg. The General is saying, "We lost Ypres . . . all according to plan." William is saying, "Shut up!"

DISTRICT QUOTA MAY BE OBTAINED FROM PRESENT LIST

It is not likely that any additional men will be called by the exemption board of the Fifth District, to take the physical examination for the new National Army. The list published today is the last furnished by the Board, and it is presumed that out of the number who have been notified the desired quota will have been obtained. There is a possibility of the quota being reduced, because of the large number of men who have volunteered from Pennsylvania. This state now leads in this respect and when the new figures are available, it is likely that the quota from the Keystone State will be materially lessened. The men called for next Tuesday are:

841	122	Louis Perunko	Hazzard, Pa.
842	1783	Joe Kobosick	South Donora, Pa.
843	3498	Mikael Vecely	634 5th St., Donora, Pa.

MANY CLAIMS FOR EXEMPTION ARE FILED WITH THE BOARD

PENNSYLVANIA RAISING THE FT. WAYNE BRIDGE

The Pennsylvania Railroad has begun the work of raising the Ft. Wayne bridge across the Allegheny river in the Pittsburgh harbor. This bridge was ordered raised by the Secretary of War last winter thus ending a controversy that had stretched out over a series of years. Some of the buildings in the freight yard adjoining have been placed on piles, and the next step will be to raise the river bridge nine feet higher. Eventually the other bridges spanning the Allegheny in the Pittsburgh harbor, all of them passenger structures, will have to be raised. The owners have two years in which to complete the work.

Physical Disqualification, However, is Very Small in Number

WORK PROGRESSING NICELY

Up until Tuesday evening 195 men had appeared before the exemption board of District No. 5 at Donora for examination, prior to selection or exemption in the new National Army. One hundred and six men appeared on Tuesday of whom 43 sought to evade army service by the exemption route, while 14 of those who were examined on Monday appeared and put in petitions to be exempted. Of the 199 men who have appeared before the board, 86 have claimed exemption.

Fourteen of those who were called Tuesday did not appear for examination. Some of them had enlisted in the army while the remainder had disappeared from the district, and they will be reported to state officials and later will be placed on the army rolls. If they fail to show up eventually they will be classed as deserters.

Over ten per cent failed to qualify physically on Tuesday, a percentage a little higher than that of Monday. A large majority of the men so examined in this district, concrete, casted as well as masonry pipe and installing and erecting stone masonry headwalls; and of concrete of steel ed pipes, according to plans approved. One man, Bureau of Township High-Falls was permanent grading, widening, having been transferred from New York.

The work is progressing at a more rapid rate today, the officers and physicians, with two days' experience, being able to handle all applicants more expeditiously. They will endeavor to reach the maximum of 120 each day from this on until they have secured the desired quota for the fifth district.

The ladies in charge of this department express some disappointment that more young ladies have not taken up the work of knitting for the benefit of the Red Cross. The Chapter has an abundance of yarn, but it lacks the necessary number of volunteers who will either devote a portion of their time at the knitting rooms, or by taking work home assist in the making of necessary supplies for the men who are called into service.

Sweaters, helmets, socks, wristlets and scarfs are needed, to be distributed among the soldiers for winter service. The articles are absolutely essential to the comfort of the men. Continued on page 3.

Owing to boiler trouble the Tri-Cities Water company is experiencing considerable difficulty in maintaining the water supply. We urge upon all our consumers to be as saving as possible with the water until we get in better shape, which we hope will be within the next few days. Request has been made to the borough to use no water for street purposes until the situation is relieved. All mills and other industries are asked to give this grave situation the widest cooperation.

RED CROSS NEEDS MORE WORKERS

Ask for Volunteers to Help in the Knitting Department

WILL PACK BOX THIS WEEK

The Charleroi Chapter of the American Red Cross will pack a box for shipment the latter part of this week which will be forwarded to some Red Cross hospital base in Europe.

In this connection the ladies who are in charge of the sewing and knitting departments of the local work ask all who have been knitting to turn in all socks that have been finished by Thursday evening at 5:00 'clock. Those having work at home, or who come to the rooms in the Stahlman building are asked to finish the work they have on hand at present in time to be packed in the box which is now being made ready.

THE WOMAN SOLDIER

From Joan of Arc to Moll Pitcher the world has not lacked its occasional spectacle of an individual woman soldier who went to meet the enemy with all the resolution and bravery of men, but with the exception of the legendary Amazons, the Russian Legion of Death presents the first example of organized troops of women going forth to shoot and be shot at on the "tough edge of battle." The Legion of Death proves, what has hitherto been doubted, that women can and will take part in actual war. But these resolute Russian women have solved only one part of a problem hitherto supposed to be altogether insurmountable. The nature of the remaining difficulty is revealed in the statement that they carry a dose of cyanide of potassium as well as arms and have vowed not to be taken alive.

The probable fate of women soldiers after being taken prisoners, their certain fate when they become the captives of such an army as the Germans, does not need to be named. The most sluggish imagination visualizes it at once. The woman soldier of the right sort finds it necessary practically to dedicate herself to death from the outset. She may escape capture and survive a war, but if she becomes a prisoner, greater resolution and bravery being therefore demanded of her than of a man. For this reason alone—and there are others—winning the woman soldier by the terms of a nation's honor is a feat of no small magnitude.

Two lots children sprang for a fight will serve during the Russian heart, but the world should not and will not permit it to establish a real precedent.

Nobody knows what this war will cost, but to put the Kaiser and the other war lords where they will do no more harm will be worth all it can cost.

The cable informs us that "all Germany is fed on narratives of American inefficiency," but does not state whether this unsubstantial diet proves a satisfactory substitute for meat.

They say that in England a "Sammy" is a simpleton, just as in some circles in America a "Mary Ann" is a stupid, but this of itself is no good reason why the new nickname for Uncle Sam's boys in khaki should be regarded as objectionable.

Six fine apartment houses on Lenox avenue, New York, have been purchased and "will be devoted to negro tenants." The violent scenes at East St. Louis, Ill., and Chester, Pa., may not be repeated in the metropolis, but long and loud protest at least may be expected.

It is estimated that \$50,000,000 in excess profits is being collected off the American people each month at the present time on the buying and

selling of flour. Whether the estimate is high or low, there is no question but what the people are being exploited to the profit of those who are in a position to take advantage of the market.

If Congress would only get down to business, and give us more action and less wind, the country would be better satisfied. Unfortunately, so many of the members not only want to have a lot to say, but likewise their own way, regardless of the opinion of others. A little more team work on the part of our national lawmakers would be greatly appreciated.

Canning EGGS

All signs point to eggs being costly next winter but to meet the situation the housewife can preserve eggs in various ways and thus "beat" the market, says today's bulletin from the National Emergency Food Garden Commission of Washington which is co-operating with this paper in a nation-wide campaign to conserve the food of the country. The commission will send its drying and canning manuals to any reader of this paper who sends a two cent stamp to 210 Maryland Bldg., at Washington, D. C.

Use only fresh, clean, unwashed and solid shelled eggs for putting down. Discard any egg which floats in the water glass solution prepared to the directions, herewith. For home preservation eggs may be packed in salt, oats, or bran, cover them with paraffin, butter or lard or immerse in brine, lime water, water glass etc. The methods commonly used are immersion in either lime water, or water glass.

For preservation in limewater, slack three pounds of lump lime in a little water and add three gallons of pure water. Stir occasionally for a day, let settle and then pour off the clear liquid. Washed eggs will not keep.

Water glass is soluble sodium silicate and should be obtained as pure as possible. This should be used with pure cold boiled water in the proportion of one part water glass to nine parts of water. Should eggs tend to float and it is known that they are absolutely fresh add a little cold boiled water to the solution. Water glass may be purchased at drug stores and is preferable to lime water. Three gallons of either will preserve about twenty dozen eggs. A gallon of the pure water glass diluted as above will preserve about ninety dozen.

Any glass wooden or earthenware receptacle may be used but NOT metal. Pack eggs small end down and pour liquid over them and keep two inches of preservative above eggs at times. Cover receptacle with waxed paper or paraffin cloth. Wash eggs in cold water after taking them out for use.

Send for the drying and canning manuals for complete instruction on food conservation by the best methods.

Compound.

Ennaut, Pa.—"I was all run down and weak inwardly. I had female troubles and nervous feelings and my head bothered me. I would often have crying spells and feel as if I was not safe. If I heard anyone coming I would run and lock the door so they would not see me. I tried several doctors and they did not help me so I said to my mother 'I guess I will have to die as there is no help for me.' She got me one of your little books and my husband said I should try one bottle. I stopped the doctor's medicine and took Lydia E. Pinkham's Vegetable Compound. It soon made a change in me and now I am strong and do all my work."—Mrs. AUGUSTUS BAUGHMAN, Box 86, Ennaut, Pa.

Grim Story of German Submarine A Steady Diet in Kaiser's Country

The work of the German submarine is too well known in this country to need any extended explanation, but the manner in which these boats are managed as they go forth on their careers of destruction would read like a weird romance if it were told. The German people are "fed" with glowing accounts of the work of these undersea craft in special editions of the German press, many of them being, of course, pure fabrication. The gullible Germans "swallow it all." But there is a grim side to the operations of the U-boat. Here is one on the high seas. The gunners are ready to fire a shot at a victim of their chase. The submarine has just come to the surface.

Maimed Ex-Soldier Divides Humble Loaf With Family in Ruined Home

The fare of French peasants who are now living in districts which were recaptured from the Germans in the recent drive of the Allies is in truth a bare sustenance. This group is pictured at the noon-day meal. They have, part of a loaf of bread and a jug of water. To the left is an ex-soldier no longer fitted for the service because of his missing leg. He is cutting the bread for the woman who sits among the ruins of their once pretty little farm house. Note the French baby closely grasped in its mother's arms who shared the humble meal.

REDFIELD URGES MORE USE OF WATERWAYS

As if to emphasize the growing importance of the Monongahela river, which is one of the greatest streams in the United States for commerce, Secretary of Commerce Redfield, in a statement made on Monday advocated the increased use of inland waterways to carry war traffic. The Secretary made this plea in announcing the fact that Walter Parker, secretary of the New Orleans Association of Commerce, had started on a tour of the lower Mississippi, Ohio and Kentucky rivers to stir up interest in river freight transportation. He is special assistant to Secretary Redfield in this work.

"Cities and towns on waterways," said Secretary Redfield, "ought in their own interest, take steps to encourage water transit and to expedite, if need be, means for bringing it quickly into service. Public bodies like Chambers of Commerce and boards of trade should take the matter up actively, where conditions make it possible to do so, and give their support to the men who endeavor to develop transportation by water on a temporary or permanent basis.

"It is encouraging to note the proposed formation of companies to construct transportation on the Mississippi river. Such organizations today do a most patriotic and most helpful service. They should be helped forward wherever they may be started in every reasonable way.

COUNCIL DISPOSES OF ROUTINE BUSINESS

A regular meeting of the borough council was held Tuesday evening, with President Duval in the chair, and all members present except Messrs. Calvert and Van Voorhis.

The matter of repairs to Shady avenue, near First Alley, was referred to the street commissioner with instruction to make repairs.

Mr. Gass, of Third street, near Apple alley, asked council to direct the water company to run a line to his premises that he may be furnished with water. The request was referred to the water and light committee.

A number of taxpayers present asked for a sewer from Crest avenue, near 12th street, to Lookout. The request was referred to the street committee and the health officer.

Mr. Robinson, of Meadow avenue, who had been notified to lay his sidewalk was present and asked to be released from the order at the present time, as he contemplates making a number of changes about his property. On promise to keep the present walk in good condition his request was granted.

C. M. Wertz was present and asked council to inspect the street in front of his property, on Lookout avenue. The borough is grading the street there at the present time, and quite a deep cut is made in front of Mr. Wertz's property. The council will inspect the premises in a body this evening.

The parties who made an opening on Washington avenue between 7th and 8th streets, were directed to make repairs at once.

The treasurer's report for May showed a balance on hand of \$24,394.81. May collection, \$513.76. Total \$24,908.57. Disbursements, for May, \$3,670, leaving a balance of \$24,394.81.

The report of Burgess Woodward for July showed fires assessed, \$144; collected, \$139, served time, \$5. The tax collector reported collection of \$193.62 for July.

U. S. FIGHTING UNITS WILL BE REDUCED

The United States Army is to be reorganized on a new basis. Under this arrangement the American Army units, under which the division totaling 28,000 men found unwieldy for service on European battlefields is abandoned for the continental unit of about 19,000 men, has been ordered by the War Department.

Under the new plan a division will include only two brigades of infantry of two regiments each, in place of three brigades of three regiments each under the old system. Many other organizational changes are made, including a material increase in the artillery and machine gun strength of each division. The cavalry regiment now included in each division is detached, a new trench mortar battery is added and the old army corps plan, abandoned after the civil war, is again put into operation. The 16 Divisions of the National Guard as now constituted, will be realized in conformity with the new plan after the Guardsmen reach their training camps. No change in camp assignments it is presumed will be involved.

Under this new arrangement it is presumed that the old National Guard of Pennsylvania, now in the service of the United States, will be made into two Divisions, this being accomplished by the addition of new regiments to be made up from men taken by the selective draft.

The second estimate for Lookout avenue, between 7th and 8th, amounting to \$3,873.12, and an estimate for the same street, between 4th and 5th streets, amounting to \$252.30, were presented and approved, and ordered paid.

A paving ordinance for Lookout avenue, between 6th and 7th streets, was presented and read, and ordered printed.

This concluded the business of the evening and council adjourned.

DELAY WILL NOT AFFECT PRIMARIES

The work of making up the list of the various boroughs, township and district officers throughout the county to be filed at the coming primary, has been delayed at the commissioners' office through the neglect of many of the clerks and secretaries of the various boards and boroughs to verify to them the vacancies for which nominations are to be made at the fall primaries. Notices were sent out to all of them as required by the Act of Assembly, more than a month ago and second notices were sent again on the 21st of July but all of them are not in yet. On account of this delay the commissioners have not been able to make out the list for publication, which should have been ready eight weeks before the primaries. Just as soon as the complete list is in, which will be in a day or two, the publication will be made.

The Act of Assembly says that "On or before the ninth Tuesday preceding the fall primary the clerks or secretaries of the various cities, boroughs, townships and school districts shall respectively, send to the county commissioners of their respective counties a written notice setting forth the names of all city, borough, township and school district officers for which candidates are to be nominated at the coming primary."

County Solicitor Eagleson says that the delay would in no way interfere with the primaries or invalidate them, as there is still plenty of time to prepare the ballots and give official notice to the voters as required by law.

WILL HOLD LAWN FETE FOR RED CROSS BENEFIT

A lawn fete for the benefit of the Charlevoix Chapter of the Red Cross will be held on Robertson's lawn, 324 Meadow avenue, Thursday evening. The public is cordially invited to patronize the efforts of the promoters, who hope to realize a neat sum from their efforts.

Holland's Queen Opens Parliament; Leaves Throne Hall Heavily Guarded

The opening of parliament in Holland was an occasion of great solemnity this year. Germany was making the position of the Netherlands as a neutral most uncomfortable and it was necessary for this governing body to devise ways and means of relieving the tension of the situation which has been developing. The picture shows Queen Wilhelmina leaving the Throne Hall after the opening session. Note that Her Majesty is closely guarded as she passes from the hall to her carriage.

FATTY ARBUCKLE / PPEARS AT THE COYLE THURSDAY

"Fatty" Arbuckle is to appear at the Coyle theatre Thursday in "The Rough House." The story of this production has to do with Mr. and Mrs. Rough, who are living quite happily in their Little Rough House by the sea, when Mrs. Rough's mother arrives on the scene to spend a few weeks. While there she keeps the pot of discomfort boiling until "Fatty" makes her understand that two is company and three is a crowd.

PERSONALS

Mrs. P. Calistri, of Fallowfield avenue, has gone to Cambridge Springs, where she will spend a few weeks.

Miss Mary Tomlinson has gone to Barberton and Akron, Ohio, where she will visit with relatives.

Mr. and Mrs. J. C. Morris and son Thomas Edward of McKean avenue, visited with Mrs. Morris' parents, Mr. and Mrs. Edward Layton of Gillespie.

Mrs. Anderson of Los Angeles, Cal., Mrs. Swisher of Peru, Ind., and Mrs. Alder of Pittsburgh were visiting with Mrs. F. C. Snyder of Washington avenue on Tuesday.

Mrs. Alice Stiger and granddaughter Mary Elva Stiger are visiting relatives in Donora for a few days.

Miss Ruth Boyd, of Donora, has returned home after visiting her sister, Mrs. Albert Osborne, of Fallowfield avenue.

Miss Mildred Osborne, of Fallowfield avenue, is visiting her grandfather, James Boyd, in Donora.

Born—Monday, August 1, to Mr. and Mrs. J. H. Roth, 720 McKean avenue—a son.

STRONG-ATTRACTIONS APPEAR AT THE MAJESTIC

The Majestic theatre is presenting a number of fine pictures this week, the presentation this evening being Robert Warwick and Gail Kane in "The False Friend;" Anita Stewart in the "Message of the Moon;" Thursday evening, and the "Food Gamblers" Friday. All of these attractions come highly recommended and are filmed in such a masterful way, that the interest of the audience is maintained every minute.

FIRE DEPARTMENT MAKES QUICK RUN TO CREST AVE.

The fire department made a quick response at 10:30 this morning to a call from box 43, located at the corner of Crest avenue and Eighth street. The call was caused by a slight fire at 805 Crest avenue, on the roof of a house owned by Mr. Jackson, and occupied by a family named Constant. The fire caught from a chimney, but it was put out with little damage to the building, a small hole being burned in the roof.

Miller's Antiseptic Oil Known as Snake Oil

Accomplishing Most Wonderful Results

I want to thank you for your wonderful oil, state Mr. J. C. Gibson, of Jonesboro, Ark. My little girl was very low with diphtheria. I had given her two doses of medicine which cost me \$20 with no results. I bought a 25c bottle of your oil and one application relieved her. Now she is well. It is the greatest remedy I ever saw. Mr. Gibson made this statement before hundreds of people. Mrs. Florence Manger 234 Whitner st., Hartford, Ct., writes: I have used your Antiseptic Oil for neuralgia with good effects. Only this I have ever tried that stopped the pain immediately. Mrs. Williams, Gadsden, Ala., writes: I have used your great pain oil for rheumatism, stiff joints, a sore throat and I want to say that it is the greatest remedy I ever tried. I recommended it to all sufferers. Many relief reported daily from thousands of grateful users of this wonderful oil. Every bottle guaranteed, bottle, or money refunded, 50c, 25c and 10c.

WOMEN GIVE OUT

Housework is hard enough when healthy. Every Charlevoix woman who is having backache, blue and nervous spells, dizzy headaches and kidney or bladder troubles, should be glad to heed this Charlevoix woman's experience:

Mrs. D. F. Worthington, Second street, says: "I was troubled by backache for years. The pains were so intense at times it made me sick all over. I was always worse in the morning. Whenever I stopped a sharp pain darted through me and I could hardly catch my breath. Often it was just as though a knife were being stuck into me and I was tired all the time. I had rheumatic pains all through my body and my feet became swollen. I bought a couple of boxes of Doan's Kidney Pills at Piper Bros. Drug Store and they relieved me of all symptoms of the trouble. I now take Doan's Kidney Pills once in awhile and they always help me."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's, Props., Buffalo, N. Y.

LITTLE STORIES ON FEEDING

Gained 26 Pounds

A Missouri druggist wrote us a few days ago that his wife had suffered a nervous breakdown and was in a precarious condition. His doctor advised him to use HEMO, a palatable malted food.

She had gone down to 95 pounds and after a few months' use of HEMO she now weighs 121 pounds and still gaining flesh. Her vitality has increased wonderfully and they are now converted to the idea that proper feeding is the thing.

HEMO is the right food for those generally debilitated from malnutrition, anaemia, chlorosis, also for convalescents from surgical treatment, fevers and wasting diseases.

If your health is impaired, try HEMO and watch the improvement. We suggest that you try a 50c package with our guarantee of satisfaction. Piper's Pharmacy, Charlevoix, Pa.

First Man Selected
For America's Army

Harry Chapman Gilbert, of Washington, D. C., has the distinction of being the first man selected for the new National Army, and he is called a physically perfect specimen. Parental objection prevented him from going to war earlier as a member of a Canadian regiment. He actually joined the Canadian forces and was on his way to Europe when he was intercepted at Halifax on board a transport and brought back to the United States at the instance of his father, for many years attached to the White House staff and once a cavalryman in the United States Army. Young Gilbert has taken an examination for a commission and may be permitted to join the regular army before being enrolled in the draft.

WILL USE MANY TRAINS
TO MOVE TROOPS SOUTH

It is estimated that it will require about 25 trains to transport the Second Brigade of the Twenty-eighth Division of the United States Army, formerly of the Pennsylvania National Guard, from Pittsburgh to the southern concentration camp at Augusta, Ga. There are three regiments in the Brigade, all of which will be recruited to full war strength of over 2,000 men each, together with their camp paraphernalia, which will require many cars to accommodate.

No orders to move the Pennsylvania troops have yet been received, but there seems to be a general impression among the men that along about the 15th of the month they will be on the move. Contractors have been delayed in getting the camp in shape, but even this delay will not keep the troops back much longer. In the meantime the various units are utilizing the time in getting their new men broken into the ways of a soldier and when the intensive training begins at Camp Hancock it will be an easy matter to continue the work.

The number belongs to Grover Cleveland Castner, who is directed to appear before the Board at once for examination. Both men are from Charleroi.

STORM QUITE HEAVY IN
OTHER PARTS OF COUNTY

While Charleroi was not favored with any rain Tuesday afternoon other portions of the valley further north were more generously treated. From Monongahela and retching to other points down the valley the rain fall is reported as being quite heavy. The same reports come from the interior of the county, although the storm was quite severe at Washington, where a number of buildings were struck by lightning, among them the gymnasium of W. & J. college.
